Investment Outlook 2019 - Credit Suisse

Investment Implications We think global equity returns are likely to be positive in 2018 but much more moderate compared to 2017, with greater risk of meaningful drawdowns. We think this favors a dynamic approach to asset allocation and a preference for European, Japanese and Emerging Market equities.

2018 Annual Outlook Weathering Heights: How to Invest in 2018

2018 Global Investment Outlook Summary Version 2018 Global Investment Outlook: Reflections on Growing Economies and Fading Stimulus—SUMMARY VERSION 2 Global Equity A “Goldilocks” Macroeconomic Scenario •The synchronized expansion we have seen around the world during 2017 looks set to continue unimpeded in 2018. After

2018 GLOBAL INVESTMENT OUTLOOK - Mutual Funds | Investments

Summary. Looking into 2018 at the IG credit markets, the best word to describe our outlook is lukewarm. From a fundamental perspective, we see strong top line earnings, however also stretched balance sheets. Top line earnings continue to improve and there are potential headwinds from tax reform and decreased regulation.

Why Our Investment Grade Credit Market Outlook Is Lukewarm ...

2018 Investment Outlook 4 Wellington Management globalization and demographics, putting downward structural pressure on inflation and thus interest rates. We don't expect the yield curve to flat-ten much more as rate hikes will lift short-term rates while inflation and a normalizing term premium post-QE (quantitative easing) will pressure the

2018 Investment Outlook - wellington.com

4 THE INVESTMENT OUTLOOK FOR 2018 A DIFFICULT PLACE TO START - INVESTING IN 2018 AND BEYOND The global economy should maintain strong growth into 2018. Europe has seen solid improvement over the past year, despite tensions from Brexit and in Catalonia and, with 8.9% unemployment, clearly still has plenty of capacity for above-trend growth.

MARKET INSIGHTS The investment outlook for 2018

Investment Outlook Forum in mid-November. Our key views: • 2018 themes: We see a synchronized global expansion with room to run in 2018 and beyond, albeit with less scope for upside growth surprises. We see inflation making a modest comeback, led by the U.S., and expect the Federal Reserve to make slow but steady progress in normalizing policy.
