What follows are some passages of text from a piece about technology in the New York Review of Books.. Just as the market or the free play of competition provided in theory the optimum long-run solution for virtually every aspect of virtually every social and economic problem, so too does the free play of technology, according to its writers.

### **A Theory of Technology - The Awl**

The terminology "difference kernel" is common throughout category theory for any binary equaliser. In the case of a preadditive category (a category enriched over the category of Abelian groups), the term "difference kernel" may be interpreted literally, since subtraction of morphisms makes sense.

### **Equaliser (mathematics) - in Category Theory | Technology ...**

The Critical Theory of Technology rejects this alternative and argues that the real issue is not technology or progress per se but the variety of possible technologies and paths of progress among which we must choose. Modern technology is no more neutral than medieval cathedrals or The

### **Contested Categories: Life Sciences in Society: 4 (Theory ...**

Theories of technology attempt to explain the factors that shape technological innovation as well as the impact of technology on society and culture. Most contemporary theories of technology reject two previous views: the linear model of technological innovation and technological determinism. To challenge the linear model, today's theories of ...

and " access contested, " the phase we are now entering, which is the subject of this volume. Phase 1: The Open Commons (the 1960s to 2000) The first phase, roughly from the Internet ' s initial formation in the 1960s through about 2000, is the period of the " open commons. " This phrase is intended to convey

### **Part I Access Contested: Theory and Analysis**

Contestable market theory is an economic concept that refers to a market in which there are only a few companies that, because of the threat of new entrants, behave in a competitive manner.
