### **9 of the Best Math Apps and Games for High School Students**

A math teacher friend of mine asked me today if I had any ideas for games he could use in his classroom this year. I know there have been some educational/"games in the classroom" lists in the past, but they have tended to be aimed at younger children or other subjects. My friend will be teaching high school algebra, geometry, and trigonometry.

My research turned up a site called simply High School Math Activities, which has 15 great ideas covering all different levels of HS math. I used activity #8, Sloping Letters, as a homework assignment. Basically, students use lines with positive, negative, zero and undefined slopes to describe letters of the alphabet and in turn decode a message.
