Interpretive Ethnography Ethnographic Practices For

Ethnography (from Greek ἔθνος ethnos "folk, people, nation" and γράφω grapho "I write") is the systematic study of people and cultures. It is designed to explore cultural phenomena where the researcher observes society from the point of view of the subject of the study. An ethnography is a means to represent graphically and in writing the culture of a group.

Ethnography - Wikipedia

F. Erickson, in International Encyclopedia of Education (Third Edition), 2010 General ethnography is a type of qualitative research that identifies and describes, through long-term participant observation and interviewing, the activity of a whole small-scale social unit – the routine practices of everyday life and the meaning perspectives according to which those practices are conducted and ...

Ethnography - an overview | ScienceDirect Topics

Autoethnography is a form of qualitative research in which an author uses self-reflection and writing to explore anecdotal and personal experience and connect this autobiographical story to wider cultural, political, and social meanings and understandings. Autoethnography is a self-reflective form of writing used across various disciplines such as communication studies, performance studies ...

Abstract . The aim of this article is to review the literature on autoethnography as a research method. It will first describe what is meant by autoethnography, or evocative narratives, and consider the particular features of this type of method.

Autoethnography as a research method: Advantages ...

1. Introduction. Research is an extension of researchers' lives. Although most social scientists have been trained to guard against subjectivity (self-driven perspectives) and to separate self from research activities, it is an impossible task.

Living Autoethnography: Connecting Life and Research ...

In any kind of work or study, we always bring a certain set of beliefs as well as philosophical assumptions. Qualitative researchers understand the importance of beliefs and theories that inform their work and also actively write about them in their research. John Creswell in his book "Qualitative Inquiry and Research Design" describes these assumptions [...]

Philosophical Assumptions for Qualitative Research - Ian ...

Norms are shared ideas about the way things ought to be done. Values are shared ideas about what is true, right, and beautiful. Norms and values are not necessarily consistent and may not be shared in the same way by all members of a culture.
