

Monitoring Water Quality Pollution Assessment Analysis And Remediation

Monitoring Water Quality Pollution Assessment

Oregon's 2012 Integrated Report Page Note: EPA issued final approval of Oregon's 2012 Integrated Report and 303(d) list in December 2018. EPA added 285 water bodies to the list, removed 56 water bodies from the list, and reclassified 714 stream segments affected by ongoing litigation over temperature water quality standards.

State of Oregon: Water Quality - Water Quality Assessment

Water quality refers to the chemical, physical, biological, and radiological characteristics of water. It is a measure of the condition of water relative to the requirements of one or more biotic species and or to any human need or purpose. It is most frequently used by reference to a set of standards against which compliance, generally achieved through treatment of the water, can be assessed.
