

## *On Death And Dying English Edition*

### **On Death And Dying English**

Death is the permanent cessation of all biological functions that sustain a living organism. Phenomena which commonly bring about death include aging, predation, malnutrition, disease, suicide, homicide, starvation, dehydration, and accidents or major trauma resulting in terminal injury. In most cases, bodies of living organisms begin to decompose shortly after death.

While the end of life experience is universal, the behaviors associated with expressing grief are very much culturally bound. Death and grief being normal life events, all cultures have developed ways to cope with death in a respectful manner, and interfering with these practices can disrupt people's ability to cope during the grieving process.

Because birds can easily move between earth and sky, humans have long viewed our feathered friends as a link between the temporal and spiritual worlds. Not surprisingly, a large number of superstitions center on birds as harbingers of death. A bird flying into a home through the door or a window, and possibly even landing on the back of a chair, is considered an omen of death for someone in ...

### **Superstitions About Death and Dying - ThoughtCo**

The death in this poem is painless, yet the vision of death it presents is horrifying, even gruesome. The appearance of an ordinary, insignificant fly at the climax of a life at first merely startles and disconcerts us.

### **Dickinson Syllabus - City University of New York**

Death, funerals and burials were important to the belief system of Aboriginal people. In the Sydney region, there were two main ways of disposing of the dead: burial, or cremation followed by burial. Observations by David Collins suggest that the method of disposal was indicative of the deceased's age or status, with cremation being accorded to people beyond middle age.
