Oncology Nursing Society | ONS | ons.org

As an Oncology Nurse, you'll care for cancer patients, monitoring physical conditions, prescribing medication, and administering chemotherapy.

Oncology Nurse | Specialty - nursing.jnj.com

Oncology nursing. Oncology nursing care can be defined as meeting the various needs of oncology patients during the time of their disease including appropriate screenings and other preventative practices, symptom management, care to retain as much normal functioning as possible, and supportive measures upon end of life.

Oncology nursing - Wikipedia

As with nursing in general, your salary as an oncology nurse will depend on your level of education, years of experience, size of employer, and where you live and work. In May 2016 the Bureau of Labor Statistics reported the mean annual income for nurses as \$68,450, with a range from \$47,120 to \$102,990 per year.

Oncology Nurse Career Guide | Nurse.org

Oncology Nursing. Where Oncology Nurses network with each other and share their knowledge. Nurses in this field provide care and support for patients diagnosed with cancer. These nurses are responsible for administering chemotherapy and managing symptoms related to cancer illnesses.

Oncology Nursing - allnurses

In order to become an oncology nurse, you can either follow the Bachelor of Science (BSN) route, or the Associate Degree (ADN). The BSN is generally the better option, as this is a more detailed qualification that will allow you to stand out from the other applicants once you are ready to start work.
