Engineering Design Services. O'Neal maintains a full-service design staff that covers all of the technical disciplines required to deliver a complete engineering design project, including civil, structural, architectural, piping, mechanical, and electrical engineers, as well as staff specializing in instrumentation, controls and fire protection.

Response Services is an engineering and contracting services company built on a foundation of serving customers responsively and responsibly. Our 24-hour emergency response team consists of 50 + field electricians, engineering services, fully stocked trucks and a fully stocked warehouse, backed by a committment to get work done efficiently and effectively.

Response Services - 4 DIVISIONS TO SERVE YOU

RP 14E: Offshore Production Platform Piping Systems FOREWORD 7 IMPACT ENERGY 1 foot-pound = 1.355818 Joules (J) (ft-lb) TORQUE 1 foot-pound = 1.355818 newton- (ft-1 b) metres (N.m) TEMPERATURE The following formula was used to convert degrees

Guide to water heater or geyser installation: Water heater piping installation & connections: here we describe the plumbing connections and piping options for hot water system hook-ups. We

explain the piping for a basic water heater installation compared with options for connecting hot water heaters in parallel, in series, or ganged.

Water Heater Piping Connections & Installation

Evaluating Seismic Requirements 2 - Kinetics Noise

More than 4,300 students from 10 countries participated in the 2019 Fluor Engineering Challenge—our fifth anniversary of this annual event. Challenged to create a volleyball machine consisting of two devices, separated by a paper net, which could launch and return a ping pong ball, students brainstormed and built innovative solutions out of simple materials like cups, rubber bands, paper ...
