

Slippery Tile Floor Solutions

Slippery Tile Floor Solutions

Tile floors are attractive and durable, but they can be slippery when they get wet or greasy. If you don't want to cover your tile with rugs to help keep your family safe, use a tile-etching acid solution to add a slip-resistant texture to your tile surfaces. Mop the floor with a mixture of grease-fighting dishwashing liquid and warm water.

How to Make Your Tile Slip-Free | Home Guides | SF Gate
