

The East European Automotive Industry Transition And Challenge A Special

The East European Automotive Industry

Automotive production is a significant industry in Russia, directly employing around 600,000 people or 1% of the country's total workforce. Russia produced 1,303,989 vehicles in 2016, ranking 16th among car-producing nations in 2016, and accounting for 1.4% of the worldwide production. The main local brands are light vehicle producers AvtoVAZ and GAZ, while KamAZ is the leading heavy vehicle ...

Automotive industry in Russia - Wikipedia

This article provides an overview of the automotive industry in countries around the world.. The United States was the world's largest automobile producer by volume from the early years of the 20th century until the 1980s, when it was overtaken by Japan. In 2009, China became the world's largest vehicle producer.
