

The Emotional Motor System

The Emotional Motor System

The Autonomic Nervous System. The second part of the nervous system to have a particularly powerful part to play in our emotional life is the autonomic nervous system.

The Limbic System - Shippensburg University of Pennsylvania

The limbic system, also known as the paleomammalian cortex, is a set of brain structures located on both sides of the thalamus, immediately beneath the medial temporal lobe of the cerebrum primarily in the midbrain.. It supports a variety of functions including emotion, behavior, motivation, long-term memory, and olfaction. Emotional life is largely housed in the limbic system, and it ...
