To demonstrate the potential damage that could be done, we analyzed oceanside communities up and down Maine's coast and created maps using GIS technology. We invite you to view the maps to the impacts that a one-meter (shown in red) and a six-meter sea-level rise (shown in yellow) would have on these areas.

Maps Maine Communities Affected Sea-level Rise

In 2013, when FEMA redrew flood maps for the coast of Maine to account for more powerful hurricanes, some of the new high-risk zones were not only inaccurate, but expensive and difficult to correct. Wealthy vacation towns could easily foot the bill, protecting access to development dollars, but many struggling fishing villages could not.
